

ABOUT US

Out of the ordinary industrial lighting

Gravel Hill began life as prop makers gaining a reputation for delivering lighting solutions where others steered clear.

Whether from wood, metal, glass or resin we created custom made solutions. Now we have our own range of lighting to suit a host of commercial and residential applications. But we still love a creative challenge, so please share yours!

Specialising in creating the perfect illumination for private residences and hospitality

We truly believe that having fabulous lighting is totally life changing. It will enhance your life and inspire you to be your best self.

This is so important in our home lives, but critical in hotels and other areas of hospitality where how we perceive and are perceived is so imperative to our experience there.

Everyone deserves the best products and the best customer service. Our clients should feel they are being treated like royalty, and that their products have been made with the associated level of integrity.

That is our standard. That is what we strive for daily.

OUT OF THE ORDINARY INDUSTRIAL LIGHTING

BESPOKE

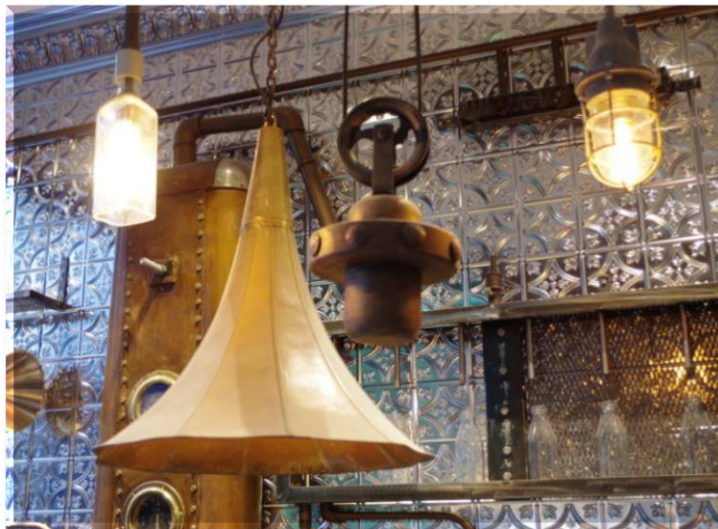

Where style & design meet joy

Our bespoke service is leading in our field. Working from an image, sketch, or often just an idea in the client's mind we have created some stunning end results. From an illuminate musical instrument wall to Gin bottles and copper pipework, we have a lot of experience in getting exactly what the client wanted, often surprising them with how amazing it looks in real life!

We work with a host of artisans to bring about these fabulous pieces, to ensure the best product possible.

One of our recent projects has been working with an artist creating a light fitting from his artwork, and further products that are inspired by his artwork. This is the real meaning of bespoke! It is lovely to make something specifically for someone that no one else has one the same, but to make something out of their own work is really exciting!

Do you have an idea you would like us to bring to life? Contact us today!

CASE STUDIES

Washrooms at Oak Barn, Frame Farm.

Oak Barn was lovingly restored for use as a stunning events venue. Gravel Hill made these taps, lights and WC roll holders to the client's exact specifications, including powder coating to the same RAL number that was used throughout the project.

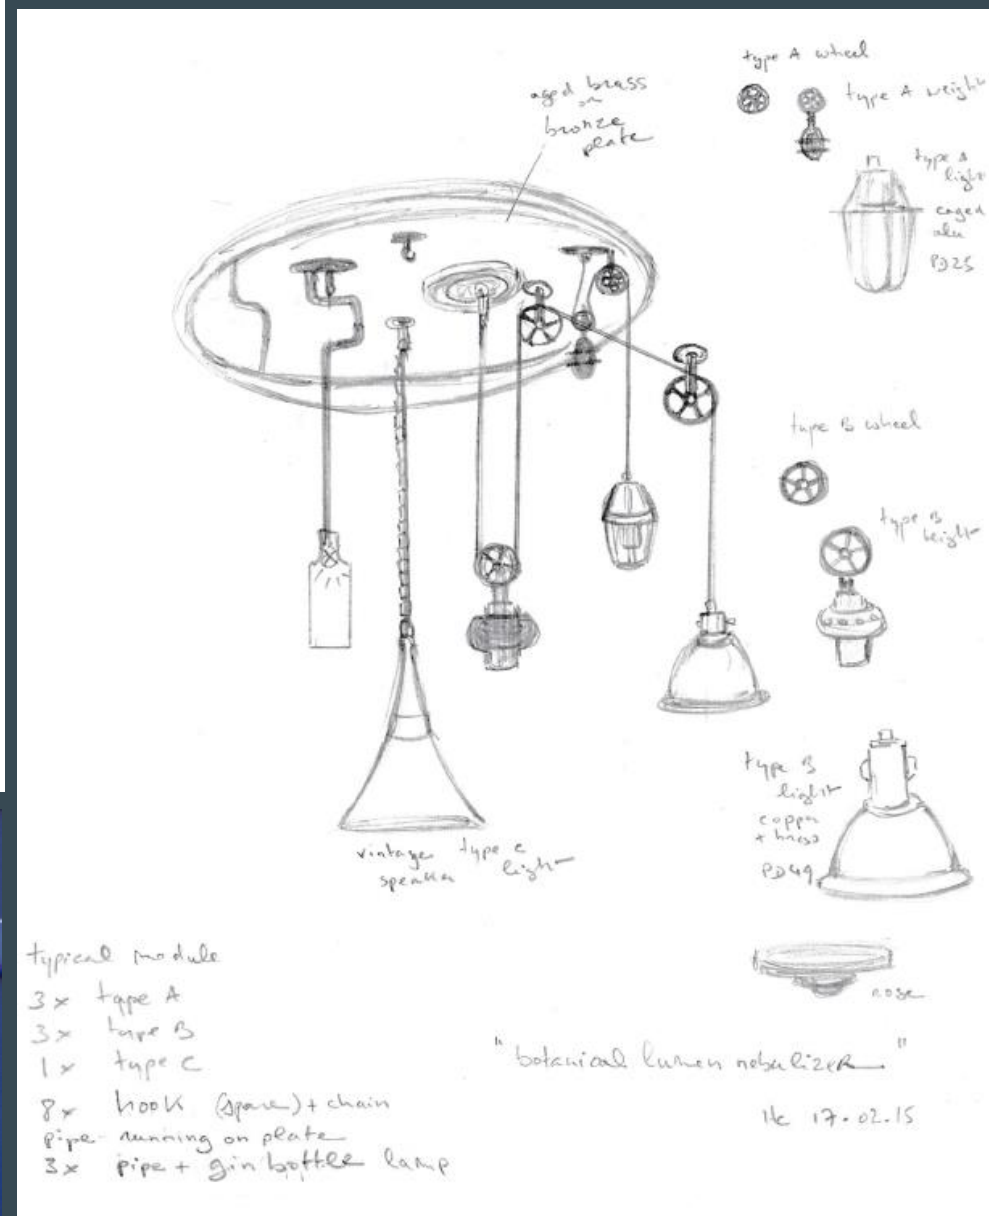

FLORA INDICA

Steampunk Restaurant, Old Brompton Road, London

This truly unique design was created from a sketch provided by the client – and look at the finished result!

The stunningly atmospheric Flora Indica theme is summed up by the following quote from their website;

"Flora Indica is inspired by and pays homage to the intrepid Scottish botanists who travelled throughout India during the Victorian period..."
"The creative décor pays tribute via an eclectic mix of splendid Scottish heritage Harris tweed fabric, Victorian steampunk in zinc, copper and brass and warm rich teak wood with Victorian period scientific curiosities decorating walls and shelves."

THE KITCHENS

Left Bank, Spinningfields

The Kitchens in Spinningfields certainly brought variety, and the same with the lighting too!

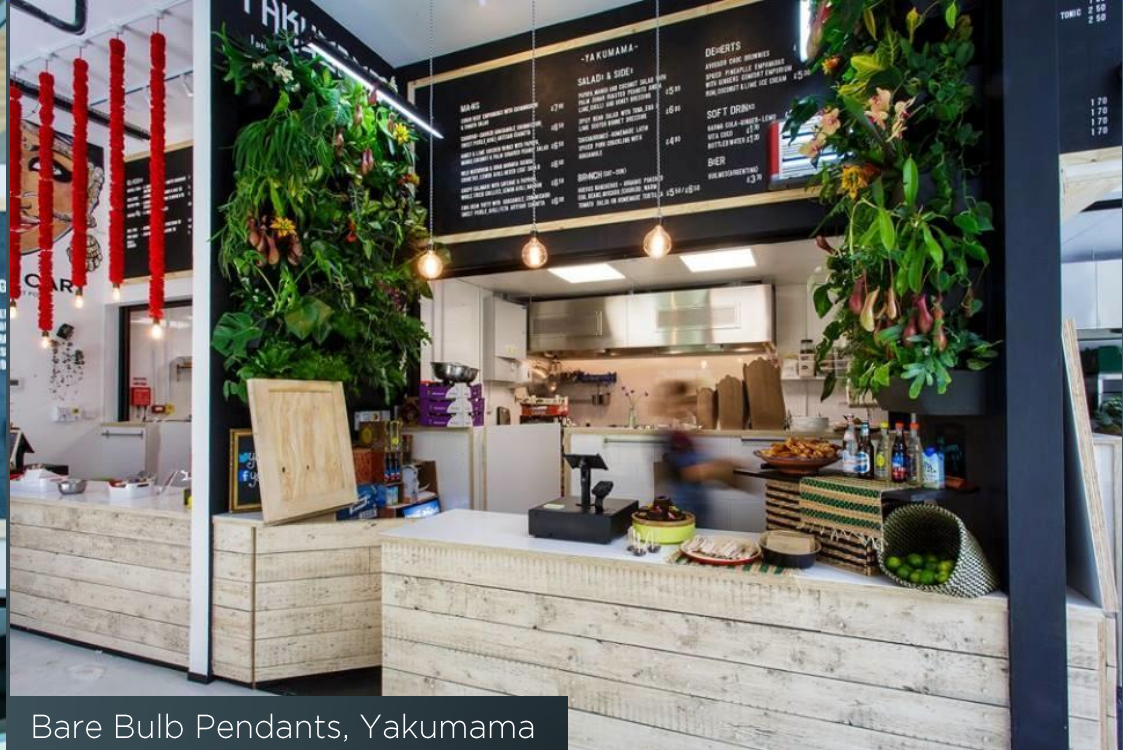

Each 'kitchen' had a different theme and different lighting features, the most notable is probably our totally unique dinosaur egg Pendants – totally modern-prehistoric! Other areas had bespoke pendants, bare-bulb displays and retro industrial shades.

The main hall had reclaimed vintage lighting which we reconditioned.

Vintage Light Garland Pendants – Chaat Car

Genuine Ostrich Egg Pendants - Mumma Schnitzel

THIRD FLOOR DESIGN

Cheltenham

Third Floor design is all about branding. It is what they do best! The lighting features in their designer offices are genuine vintage factory lights with a patina built up of years of factory life.

We reconditioned them and installed new electrics to keep everything safe. This is pared-back industrial style done right, we absolutely love the finished result!

LOST & FOUND

Cocktail Bar

*"The Lost & Found – a collection of avant-garde cocktail bars
Victorian hideaways, all whilst recalling the glamour of bygone eras."*

So says the Lost & Found website, and we think it is fully fitting.

We love this project, there is hardly an 'ordinary' light fitting anywhere – and that could be applied to everything else in this building too, they even had bespoke shaped tables!

This is what we call eye candy! Enjoy!

SAVANNAH

Low Key Industrial Elegance

The broad 'stepped' shade of the Savannah stands out from the crowd by its' sheer versatility – from pendant to statement wall light, or the ideal pairing with industrial conduit.

Many more colours available than those pictured, check us out online today!

INDUSTRIAL

Raw style

Industrial style is where Gravel Hill began – and we think there is nothing quite like our take on it! From edgy conduit lighting to rustic pendants and minimalist bare bulb pendants, we know we can nail just the vibe you are looking for. All conduit fittings are powder coated, giving you endless options for customisation.
